

Breast Health Access for Women with Disabilities (BHAWD)

“Increasing Access to Mammography Services for Women with Disabilities©”

*Training for Mammography Technologists on
providing high quality, accessible services to
women with disabilities and seniors.*

Specific Training Objectives

- ☑ Identify barriers and solutions in providing mammography screening.
Acquire tools and resources to implement in your facility;
- ☑ Advance skills for modifying mammography positioning techniques;
- ☑ Recognize the special needs and concerns of women with disabilities,
such as those with cognitive and developmental limitations;
- ☑ Learn effective communication skills;
- ☑ Review strategies for approaching challenging mammography situations.

BHAWD offers 5-hour trainings, approved by the ASRT for 5 Category A Credits

BHAWD is a grant-funded, community partnership established in 1995. BHAWD is a nationally recognized model in leadership and collaboration for increasing health services and accessibility for women with disabilities.
